

UDDELING 2019

VIDENSKABELIGE PROJEKTER

Examining the leukemic stem cell compartment in childhood acute myeloid leukemia	220.000	Henrik Hasle, professor	Aarhus Universitetshospital
Senfølger hos overlevende af akut lymfatisk leukæmi hos børn	360.000	Henrik Hasle, professor	Aarhus Universitetshospital
National Klinisk Forskningsenhed for behandling af børn og unge med kræft	2.700.000	Lisa Lyngsie Hjalgrim, overlæge	Rigshospitalet
RePlay: Rehabilitation, including Play and Movement Activities for Preschool Children with cancer.	750.000	Hanne Bækgaard, ph.d., postdoc	Rigshospitalet
Rehabilitation, including Social & Physical Activity and Education in Children and Teenagers with cancer (RESPECT)	397.400	Hanne Bækgaard, ph.d., postdoc	Rigshospitalet
The next level of disease monitoring in childhood leukemia: improving minimal residual disease (MRD) detection and managing intraleukemic heterogeneity	592.000	Hanne Marquart, overlæge	Rigshospitalet
Heterogeneity, dormancy and therapy resistance in ALL residual cell subsets	500.000	Signe Modvig, læge	Rigshospitalet
Implementering af FAMOS - Støtte til familier til børn med kræft	600.000	Pernille Bistrup, psykolog, ph.d., lektor og seniorforsker	Kræftens Bekæmpelse
Exploring the Potential for Clinical Introduction of Hippocampal-Sparing Intensity Modulated Proton Therapy of Pediatric Craniospinal Irradiation	355.188	Karsten Nysom, overlæge	Rigshospitalet
Specialized T-cells recognizing new targets in acute lymphoblastic leukemia	376.000	Mathilda Degn Vinter, post.doc.	Rigshospitalet
Optimering af kvalmeforebyggende behandling hos børn og unge i kemoterapi	500.000	Kim Dalhoff, professor	Rigshospitalet
Tilskud af fiskeolie til børn og unge voksne under behandling for akut lymfoblastær leukæmi. Betydningen for udvikling af hyperlipidæmi og toxiciteter	1.100.000	Thomas Frandsen, overlæge	Rigshospitalet
Congenital malformations and cancer risk childhood and early adulthood	1.200.000	Henrik Hasle, professor	Aarhus Universitetshospital
Establishing epigenetic systems for osteosarcoma and elucidating new treatment targets	600.000	Lise Lotte Hansen, cand.scient., lektor	Aarhus Universitetshospital
TEMPLE - Thiopurine Enhanced Mutations for PD-1/Ligand-1 Efficacy	1.500.000	Kjeld Schmiegelow, professor	Rigshospitalet
Detection of childhood cancer prone syndromes and their associated malignancies	550.000	Ulrik Stoltze, cand.med.	Rigshospitalet

Hodgkin lymphoma histology - more than meets the eye?	560.000	Henrik Hjalgrim, læge, ph.d.	Statens Serum Institut
Forskning professorat i pædiatrisk onkologi	3.000.000	Klaus Müller, professor	Rigshospitalet
Hjernetegn - a CNS tumor awareness campaign	893.670	Henrik Hasle, professor	Aarhus Universitetshospital
Etablering af børneonkologisk CONTROL center - Childhood Oncology Network Targeting Research Organisation & Life expectancy	6.900.000	Kjeld Schmiegelow, professor	Rigshospitalet
Professorat i bioinformatik	1.500.000	Kjeld Schmiegelow, professor, overlæge	Rigshospitalet
Effects of integrated neuromuscular training in children and adolescents with cancer during intense treatment - a randomized controlled trial	550.000	Jan Christensen, fysioterapeut, postdoc	Rigshospitalet
Retinoblastompatienter i Danmark: Opgørelse over behandling og socioøkonomiske forhold	240.000	Pernille Axel Gregersen, overlæge	Aarhus Universitetshospital
Acute Lymphoblastic Leukemia Survivor Trial And Rehabilitation (ALL-STAR) study - A national study on treatment-related late effects in survivors of childhood and young adult lymphoblastic leukemia.	3.000.000	Thomas Frandsen, overlæge	Rigshospitalet
Hjemmebehandling med kemoterapi til børn og unge med kræft - et interventionsstudie	550.000	Helena Hansson, cand.scient.san.	Rigshospitalet
Impact of nutrition on early toxicity and late effects in pediatric cancer treatment	1.100.000	Klaus Müller, professor	Rigshospitalet
Hydrochloric acid therapy for central line-associated bloodstream infection in children with cancer. A nationwide, double-blind, randomized placebo-controlled trial	1.000.000	Ulrikka Nygaard, overlæge, lektor, ph.d.	Rigshospitalet
Afsat til scholarstipendiater	400.000
